

Amherst Walkie Talkie Radio Centre

Our Walkie Talkie Radios For Hire

We have a full range of professional-quality yet lightweight and easy to carry walkie-talkies radios for hire.

A radio is shown here next to a soft drinks can to show its size. The radio weighs only 215 grammes.

The radios are very simple to use with just a rotary on/off and volume control and a rotary channel selector.

They also have a strong spring-loaded belt-clip on the back, and a socket to plug in earpiece/ microphones and headsets etc.

Our radios are supplied with chargers, usually the compact, A4-page sized 6-slot charger shown above.

We can also provide earpiece/microphones as shown below to enable radio messages to be heard even in noisy environments.
