

## Amherst Enterprises Ltd Network SIM Card Walkie Talkie Radio Hire Price List

<p><b>Tesunho TH388 SIM Card Network Radios</b></p> <p>The Tesunho SIM Card walkie-talkie are small, light units.</p> <p>The Tesunho radios have a strong spring-loaded belt-clip on the back.</p> <div style="text-align: center;">  </div>	<p><b>Tesunho SIM Card Network Walkie-Talkies send their messages over the mobile phone data network.</b></p> <p>Because of this, their “range” is effectively unlimited unlike “conventional” walkie-talkies – with the proviso that the radios <b>NEED</b> to be in decent mobile phone network coverage in order to work at all. The SIM cards we supply can use any of the UK and EU mobile networks.</p> <p>They are <b>IDEAL</b> for spread-out events in towns and cities where normal walkie-talkies struggle to get their signals very far, due to buildings in the way. Also for stewards along the course of a marathon, 10K run or cycle race where the distances are a lot further than normal radios can transmit.</p> <p>Network radios also have a longer “latency” between the sender saying something, and their voice coming out of the other radios. It is a bit like talking on the phone to someone on the other side of the world.</p> <p>They will <b>NOT</b> be ideal for use in remote areas, and for events such as music festivals or large crowd events where the mobile networks are likely to get “swamped” by lots of calls, texts and mobile internet use in an area where mobile coverage is not designed to handle so many users at once.</p> <p>The network radios have “groups” (like channels on conventional walkie-talkies) which we define and name to suit your needs.</p>
